

Violence and injury prevention: Capacity building

Dr David Meddings

Violence and Injury Prevention and Disability

World Health Organization

**World Health
Organization**

Overview of talk

- Conceptual breakdown of capacity building
- WHO capacity building resources
- Issues and priorities for improvement in capacity building

World Health
Organization

Conceptual breakdown

WHO believes capacity building involves:

- Human resources
 - Knowledge
 - Skills
- Institutions and infrastructure

World Health
Organization

Knowledge vs skills

TEACH-VIP

TEACH-VIP E-Learning

VIP Short Courses

VIP Webinars

KNOWLEDGE ≠ SKILLS

MENTOR-VIP

World Health
Organization

Why skills matter

Who do you want to fly you some?
KNOWLEDGE ≠ SKILLS

World Health
Organization

What skills?

Write a
research
grant

Set up a
surveillance
system

Conduct a
study

Develop an
injury policy

Develop a
data collection
tool

World Health
Organization

Programmatic architecture of MENTOR-VIP

↓ Shortlisted candidates – prepare supplemental information

→ Candidate profile and supplemental information sent to mentors

← Mentor ranking creates matched pairs who develop, and carry out a 12 month mentoring accord

Self-directed learning

- TEACH-VIP E-Learning (2010)
- Developed with Education Development Center

- <http://teach-vip.edc.org>

- As of Nov. 2011 - over 17,000 unique visitors and 47,000 visits

World Health
Organization

Issues

- Training approaches fragmented
- Lack of awareness of MENTOR-VIP
- Institutional/infrastructural capacity

World Health
Organization

Conclusion

THANK YOU!!
